📍 France, Clamart, 92140

🌐 <https://www.linkedin.com/in/rabiHkadi/>

Full Stack Developer specialized in PHP/Symfony, with experience building complex web platforms focused on performance and user experience. Skilled in designing REST APIs, optimizing application performance, and collaborating with product teams to deliver robust and scalable solutions.

PROFESSIONAL EXPERIENCE

FULL STACK WEB DEVELOPER

AUGUST 2021 - JULY 2026

VISTORY - VELIZY, FRANCE

- **Developed and maintained** a web platform dedicated to 3D printing (Mainchain) using PHP / Symfony.
- **Designed and implemented** dynamic, high-performance, responsive front-end interfaces using HTML5, CSS3, and JavaScript, with a strong focus on UX/UI.
- **Developed back-end features** and secure REST APIs, including structured logging for monitoring, debugging, and data-flow traceability.
- **Optimized application performance** including loading times, database queries, and rendering, while continuously improving the user experience.
- **Designed and integrated new features** in collaboration with product and design teams.
- **Managed and interacted** with relational databases (MySQL), including writing and optimizing SQL queries.
- **Applied development best practices** including clean code, modularity, reusability, and separation of concerns.
- **Performed code reviews** through pull requests to ensure code quality, robustness, and consistency.
- **Created and maintained technical documentation** to improve system understanding and support the onboarding of new developers.
- **Contributed to resolving** complex bugs and continuously improving platform stability.
- **Developed interactive** dashboards and data visualization tools using Chart.js and DataTables.

MOBILE DEVELOPER

OCTOBER 2018 - JULY 2021

ANI SAL OFFSHORE/VISTORY - BEIRUT, LIBAN

- **Developed a cross-platform** social mobile application for the Geleter platform using Android and Flutter.
- **Integrated APIs** to retrieve real-time data, including product information and user-generated content.
- **Tested and debugged** the application across different devices to ensure stability and responsiveness.
- **Implemented real-time** API integrations for dynamic content management and user interactions.

IT INTERN – TECHNICAL SUPPORT

FEBRUARY 2018 - APRIL 2018

INTERCONTINENTAL PHOENICIA – BEIRUT, LEBANON

- **Maintained and optimized** the hotel's IT infrastructure, including hardware and software troubleshooting, as well as building, repairing, and restoring computers.
- **Diagnosed and resolved** issues related to computer hardware, peripherals, and network equipment.
- **Collaborated with the IT team** to deploy software updates and patches, helping ensure the security, stability, and performance of the hotel's IT systems.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

SEPTEMBER 2014 - JUNE 2019

AMERICAN UNIVERSITY OF SCIENCE AND TECHNOLOGY – BEIRUT, LEBANON

Computer Science degree focused on programming, data structures, algorithms, databases, and software systems development.

ACHIEVEMENTS & CERTIFICATIONS

- Winner of AUST's Annual Computer Science Project Exhibition (2019).
- Completed a training program with the Training and Development Department at Banque du Liban (2018).
- IHG Academy Training Program – Certificate of Completion (2018).

LANGUAGES

- Arabic: Native
- English: Bilingual
- French: Bilingual

TECHNICAL SKILLS

- Languages: PHP, Java, JavaScript, SQL
- Frameworks: Symfony, Node.js, Next.js
- Frontend: UI/UX, Design Patterns, React
- Databases: MySQL
- Tools: Git, REST APIs, Vanilla HTML & CSS

SOFT SKILLS

- Technical communication and teamwork
- Problem-solving and advanced debugging
- Analytical thinking and performance optimization
- Attention to detail, code quality, and best practices
- Autonomy and fast learning
